

BEEZHIVE

beezness plan

Bridging blockchain technology and bee conservation for a sustainable future.

The BeezHive community is here to grow and strengthen the bee population by building bee hives in the most beautiful parts of the world.

Be part of a world that bridges Web3 and the real world, whilst giving back to both nature and the planet.

Join the hive, save the bees.

Education

As a business we have a responsibility to educate others on the importance of bees and the environment.

Nature and learning have no age limit. There is something here for everyone.

What we offer:

- Videos of the apiary
- Visits to the apiary for community members
- Website
- X spaces
- YouTube content

Providing Value

Holding a BeezHive NFT will give you access to the world of bees and honey. We plan to venture into the following areas:

- Building out multiple apiaries
- Honey based products
- Honey distribution
- NFT staking gamification

What we have achieved so far:

- Acquired funds from ShankPad (joint ownership)
- Airdropped holders Honey Jars for FREE
- Built a fully functioning apiary with over 50 hives
- Developed multiple Cardano partnerships
- Distributed Beezlist passes for FREE to early supporters
- Installed cameras for the hives
- Minted 650 OG Beez 1.0
- Minted 1275 Beez 2.0
- Warehouse under construction
